Modal: When the 'more info' is clicked, a modal box will appear with further information about the activity. The content of the modal includes the activity name as the main header. Beneath the header, a carousel of images is displayed with a left and right caret to scroll clockwise or anticlosewise through the available images. A paragraph of text sits beneath the images and gives an informative summary of the activity. Beneath the summary text is series of icons representing the facilities available at the activity. At the bottom of the modal, there's a separate section with a link to the activities website, when clicked, opens in a new browser.

On smaller mobile devices, the structure and style of the navbar, tabs and footer are similar to larger devices, with some minor differences.The filter buttons on the filters tab appear in pairs, stacked vertically.The activities section sees the biggest change including the complete removal of the summary paragraph. The image is stacked on top of the activity name, filters, and location appearing appearing at the bottom.Activity results are still displayed with a horizontal rule giving separation.
